跋

Hi, this is Windart. Thank you for buying my new book.

It's my third doujinshi book. The theme is the sacred blacksmith, I have read the novel up to volume 4. Actually I like Aria better than Cecily, maybe her condition could be the cause. Because the relation between Aria and Cecily is quite interesting, I decided to make the Aria X Cecily doujinshi.

My target was pure Yuri hentai doujinshi, without any toys and Puts. But without those two, looking for reference material is harder than I thought. One naughty part is shallower, if I have another opportunity I would like to write about darker story.

After that I'll write a Touhou book and then I'll seriously return to my work. I'll not draw anymore, I will always feel sorry for the people that have been supporting me.

Finally thanks to the following people. Translation by Riceking, the person responsible for the consignment sale circle MAIDOLL Hien's and Usagi-Chan, etc.
